JABRA DIAL 550 PRODUCT BENEFITS

Crystal Clear Sound

Digital Signal Processing for clearer sound

Clear sound is essential for a good conversation not to mention call efficiency and accuracy. Digital Signal Processing (DSP) in Jabra audio devices will remove background noise and echo as well as protect the user against sudden high peaks in volume. Call handling time and potential misunderstandings are significantly reduced.

HD Voice – Wideband Audio

High quality audio for crystal clear conversations

Enjoy high-definition sound with HD Voice and get crystal clear, intelligible communication. You get life-like, vibrant conversations where you can focus on the content and don't have to struggle to understand what the person on the other end of the line is saying.

Jabra Software Applications

Easy device configuration and softphone integration

Customize and control your audio device settings with Jabra's software applications. You get full integration and remote call control with the latest generation of softphones.

Omni-Directional Microphone

Picks up the sound of your voice

Jabra headsets with omni-directional microphones pick up your voice to get life-like natural sounding conversations in environments with low or no background noise.

PeakStop™

Safe sound and superior hearing protection

PeakStop technology immediately removes potentially harmful loud sounds or tones before they reach your ears and keeps the sound level within the safe range to protect your hearing.

Remote Asset Management

Remote mass deployment and device management

Configure and implement the company's audio devices 100% remotely from one central point. You get the latest features and functionalities on one go with Jabra Xpress, a web-based solution. You can also get a complete overview of all Jabra audio devices installed in the IT network with Jabra Xpress' asset management component.

Remote Call Control

Seamless integration between your phone and headset

Answer and end calls on the Jabra audio device with seamless integration between your phone and headset. The remote call control gives you the power to multitask and be productive. With a Jabra wireless audio device you can control your call even when you are away from your desk.

UC Plug-And-Play

Plug-and-play with all leading UC platforms

Jabra devices feature intuitive call control and seamless connection to all leading UC applications and softphones. They are easy to set up and easy to use, leaving you free from any installation expertise or extensive training requirement.
