

Many industries must record and archive calls for reasons related to customer satisfaction, employee evaluation and training, security, or legal compliance. Managing these recordings within Asterisk typically involves a lot of management time sorting and filtering call detail records to manually extract system call recordings.

Tired of searching the system call detail records for call recordings? Running out of storage on your system due to required archiving of call recordings? With the Call Recording Report module, you can view, sort, listen to, archive, and download all recorded calls on your system.

## Features

- ▶ View lists of recordings sorted by year, month and day
- ▶ Auto-archive calls recorded by Asterisk
- ▶ Download archives as .tgz files that can be opened using common tools like Winzip
- ▶ Directly listen to and download individual call recordings that exist on your system
- ▶ Automatically delete the oldest archive to control disk storage as new archives are created
- ▶ Automatically create a new archive on the first day of each month
- ▶ Send an automatically generated e-mail reminder when an archive is created
- ▶ Sort recordings by call type, source, destination, time or duration

The screenshot shows a web interface titled "Call Recording Reports" with tabs for "Call Recordings", "Recording Archives", and "Settings". A search bar is visible in the top right. The main content is a table with the following columns: Type, Source, Destination, Date - Time, Duration, and Play. The table contains several rows of call data, including internal calls and calls from external sources like 19208868130 and 9209449990. Each row has a play button and a duration indicator.

Type	Source	Destination	Date - Time	Duration	Play
in	19208868130	9209449990	2015/07/13 - 16:16:17	0:17	▶ 0:00
in	19208868130	9209449990	2015/07/13 - 16:16:45	0:08	▶ 0:00
in	19208868130	9209449990	2015/07/13 - 16:16:45	0:48	▶ 0:00
internal	4101	4102	2015/07/13 - 16:18:05	0:01	▶ 0:00
