Switchvox®

It's more than a phone system. It's a better way to communicate.

digium

Digium®. The Company that's Reinventing the Phone System.

Who is Digium?

Digium's VoIP solutions provide a competitive edge for small, medium and large businesses. Digium's product lines include Asterisk® custom communications, Switchvox® Unified Communications (UC), Digium Cloud Services (including Switchvox Cloud), and a family of HD IP phones that deliver enterprise-class features at a price businesses can afford.

Digium is the creator, primary developer and sponsor of Asterisk, the world's most widely used open source communications software. Asterisk turns an ordinary computer into a feature-rich voice communications server.

Switchvox is the award-winning UC solution built on the power of Asterisk with thousands of installations worldwide. With Switchvox Anywhere, you can deploy Switchvox on-premises, in a virtual environment, in the Cloud, or on your mobile device.

Switchvox is the Best Communications System for Your Business

The combination of the Switchvox system and Digium phones provides a complete communications solution for small and mid-sized businesses. This Unified Communications system integrates all of your office communications, including phone, chat and web mashups. Customize your communications experience right down to the phone. Access call queues, your presence, and the applications you need, right on your desk phone.

Count on Switchvox to help you easily transition from simple telephony to a feature-rich UC solution. Now you can truly communicate the way *you* want to. Available on premises or in the Cloud, Switchvox can improve productivity by accessing all of your office communications tools no matter where you are – on a mobile phone or at the office. **Talk about flexibility!**

Switchvox® is the Smarter Choice for Your Next Phone System

Deploy How You Want

Switchvox Anywhere allows you to deploy Switchvox in a way that best fits your company. For quick scalability, easy setup, and an OpEx spending model, choose Switchvox Cloud. If you prefer complete control and a larger user capacity, Switchvox on-premises is the way to go. Both applications offer the same all-inclusive feature set that makes Switchvox the best value in UC and UCaaS.

Easy to Manage

An intuitive point-and-click interface allows you to manage every aspect of Switchvox from anywhere you have Internet access. Empower your employees to manage their own status and voicemail boxes. You can easily view the "who, what, when, and where" of your business calls using Switchvox's extensive features, which can be accessed directly from your desk phone or Switchboard.

Many Products in One

Switchvox is more than just a business phone system. When combined with Digium phones, it is a complete Unified Communications solution. The system combines the power of many features into one, such as a conference bridge, chat/instant messaging server and IVR. Consolidate some of your office activities and save more money in the process.

Saves You Money

Switchvox comes with more features and is more affordable than other proprietary systems that offer only standard capabilities. Customers can save up to 70% on monthly telephony costs and service charges. Also, Digium will never lock you into a specific network equipment vendor, so feel free to choose a solution that fits your needs and your budget.

With Switchvox, customers can save up to 70% on their monthly telephony costs and service charges.

Digium's line of phones are designed to work with Switchvox, allowing you to

- Enjoy crystal clear HDVoice
- Easily customize and control your caller's experience with built-in phone apps
- Enhance your communications with a fully-integrated end-to-end solution

Switchvox provides the power to communicate **where and how you want**, whether you're at your desk or on the road.

Powerfully Intuitive

Let Switchvox work for you by easily integrating other business applications with your phone calls. Access real data, trigger events and enable business processes with incoming calls. Automatically access your caller's record with built-in support for Salesforce.com. Administrators and users are able to easily access real-time call queue information and detailed reports within Switchvox. Monitor calls whether you're remote or in the office. Discover everything you need to know about your caller *before* you pick up the phone.

Powerfully Collaborative

Today's conversations involve more than just your voice. With Switchvox, you can click on an extension to initiate high-definition calls with Digium phones. Switchvox systems also support high-quality video calling with IP video phones so you feel more connected with remote callers and won't have to miss a facial expression. Think of how much you can save if you don't have to travel by airplane every time you want to get business done.

Powerfully Mobile

Switchvox lets you define where and when you communicate. Imagine being able to receive your office phone calls on any phone. Whether you are at your desk, on your cell phone, or using the hotel phone, others in your office will see you are on the phone – your extension and "presence" stay with you. With Fixed Mobile Convergence, easily transfer calls from any phone back to your Digium desk phone or another caller without interrupting the call, allowing you to take your office on the road!

Switchvox Switchboard Puts Your Entire Communications System Just One Click Away

Switchboard is available for every user.

Click-to-call, chat, view real-time call statistics, and more, all with the unique capabilities of the Switchboard web-interface. **Note:** Switchvox panels are not limited to the Switchboard. Access key data right from your Digium phone — such as presence and queue details.

Switchvox provides all of these features and more in every system — without any additional licensing or costs!
Presence

See who is in the office, who is on a call, and who is away from their desk. Call rules update automatically based on an employee's presence.

Chat (Instant Messaging)

Improve employee communication with integrated chat. Communicate as your workflow demands — without using unsecured public video and instant messaging servers for corporate communications.

Recording and Monitoring

Great for training and auditing calls. Managers can easily monitor, whisper, barge and record calls from the Switchboard. You can also record calls directly from your Digium phone.

Mobility

(Fixed Mobile Convergence)
Access all the power of your desk phone anywhere you go with the Switchvox Softphone for iPhone® and Android®. Receive and transfer calls, create conferences, change your status, and more — all from your smartphone.

Unified Messaging

With voicemail delivered to your inbox or mobile device, you can stay in communication wherever you are.

Reporting and Call Logging

See details about all calls in your system. Custom, statistical reports can be scheduled and emailed to you automatically.

Conferencing

A built-in conference bridge allows all of your employees to manage their own conference rooms on-demand.

Video Calling

Collaborating over long distances has never been easier or less expensive since video phones are compatible with Switchvox.

Real-Time Interaction

Switchvox's Switchboard has click-to-call, transfer and many other features that make it easier than ever to communicate intuitively.

Call Queues

(Automated Call Distribution)
Not just for the call center, Switchvox and Digium phones bring powerful call queuing functionality to even the smallest business that needs to efficiently handle inbound calls.

Switchvox Apps

(Mashups)
Easily integrate Switchvox with any web application to give your employees everything they might need for a call — *before* they answer it!

The Switchboard Web Interface Provides Real-time Call Control and More

CRM Integration

Switchvox is integrated with Salesforce.com. Your sales and service organization will have customer information right at their fingertips when they receive a phone call. What a productivity boost!

Fax

With Switchvox, on-premises fax is integrated. One number works for faxes and calls. Faxes are delivered directly to your inbox!
(Cloud options also available)

Developer Friendly

Switchvox's Extend API makes it easy for a web application developer to integrate Switchvox with any web tool. The Digium Phone API allows custom apps to run natively right on the phone.

Interactive Voice Response

The extensive built-in IVR allows you to provide information to the caller, collect information about the customer need, and transfer the caller to the appropriate person or department.

Traditional and VoIP Calls

By mixing VoIP with traditional calls, your business can optimize communications and save money without sacrificing features.

Choose the Switchvox Solution that's Right for You

With Switchvox Anywhere, you can ensure that your business communications investment is protected. Because they both incorporate the same software, you can easily migrate from a Switchvox Cloud installation to a Switchvox premises-based solution should you decide the hosted solution no longer fits your particular business needs. Most importantly, when moving from Digium's cloud-based solution, you maintain all of your settings and phones, making it a truly seamless transition for your employees. With Switchvox, you have the flexibility to grow into the phone system you need in the future.

Switchvox can also be deployed in a virtual environment using the power, scalability and disaster recovery tools available with VMware. Virtualization eliminates the need for a dedicated appliance and provides small and medium-sized businesses with a phone system that is able to meet the needs of an enterprise at a fraction of the cost.

The Power of Switchvox in the Cloud

Switchvox Cloud is Digium's hosted UC solution. It incorporates the same software as the on-premises Switchvox appliances, so you have access to the same powerful UC features like mobility, IVRs, queues, and tight integration with Digium phones. With Switchvox Cloud, all features are included and no additional licensing fees are required. With prices starting at $12.99 per user/month, Switchvox Cloud is the best value for your complete hosted UC solution.

Switchvox Cloud gives you access to a business-class phone system while completely eliminating costly CAPEX. Add Digium phones to your monthly bill instead of expending capital in hardware purchases.

*5 user minimum, only available in
 US lower 48 states*

Switchvox Cloud makes it so easy to get started with no upfront costs, hassle-free installation and no ongoing maintenance.

For more information and to try Switchvox Cloud completely risk-free for 30 days, visit **www.digium.com/switchvoxcloud**

With all features included,
Digium is recognized as the *Best Value in UC Phone Systems.*

"SMBs are expected to continue to retain a cautious approach to spending, and their UC decisions will be shaped not only by business process and communications improvements, but also by hard cost factors (like cost savings). This means some SMBs will take a more evolutionary approach to UC as they leverage existing investments in phones or communications infrastructure instead of migrating to UC suites in a single leap."

Gartner, Marketscope Report, *Magic Quadrant for Corporate Telephony*

Authors: Jay Lassman, Steve Blood, Geoff Johnson

We're changing the way the world communicates. *Again.*

Digium®, Inc. provides Asterisk® software, telephony hardware, and Switchvox® business phone systems that deliver enterprise-class Unified Communications at an affordable price. Digium is the creator, primary developer and sponsor of the Asterisk project; the world's most widely used open source communications software. Asterisk turns an ordinary computer into a feature-rich communications server. With a community of more than 80,000 developers and users worldwide, Asterisk has been used to create VoIP communication solutions in more than 170 countries. Since 1999, Digium has empowered developers to create innovative communications solutions based on open standards and open source software, providing an alternative to proprietary phone system vendors. Digium's business communications products are sold through a worldwide network of reseller partners.
