

IP66 Analog Horn

CyberData

The IP Endpoint Company

The new IP66 Analog Horn (011471) is a heavy duty horn rated for outdoor use, while also being appropriate for warehouses, manufacturing plants, garages and any environment needing loud paging. It is used with the CyberData Loudspeaker and Paging Amplifiers listed below. The IP66 rating means that it is built for harsh outdoor environments including high moisture, dust, oil, and high pressure water jets.

The device is an analog re-entrant horn with a powerful and efficient compression driver designed for good speech intelligibility and a large area of coverage utilizing the supplied AT PoE power.

Features

- Weather and corrosion resistant design
- IP66 rating
- 20 watts continuous duty
- Designed for good speech intelligibility
- Adjustable mounting base
- 3.28 foot (1 meter) connected cable
