

VoIP Clock Kit

The Clock Kit enables the CyberData SIP Speaker to be upgraded to a highly visible public address device with a time display.

The large display characters are easily read and adjust for ambient light conditions. Time sync is performed by NTP and a built-in real-time clock.

Power is supplied by the CyberData SIP Speaker from a single PoE connection.

Features:

- Easy wall or ceiling installation
- Mounting kit included
- Electrogalvanized steel construction
- RoHS compliant
- Keyhold for easy installation
- Top and bottom cable channels
- 2.3-inch sized digits
- 12 or 24 hour format
- NTP time source
- Battery backed up real-time clock
- Auto ambient light adjustment
- Two years warranty

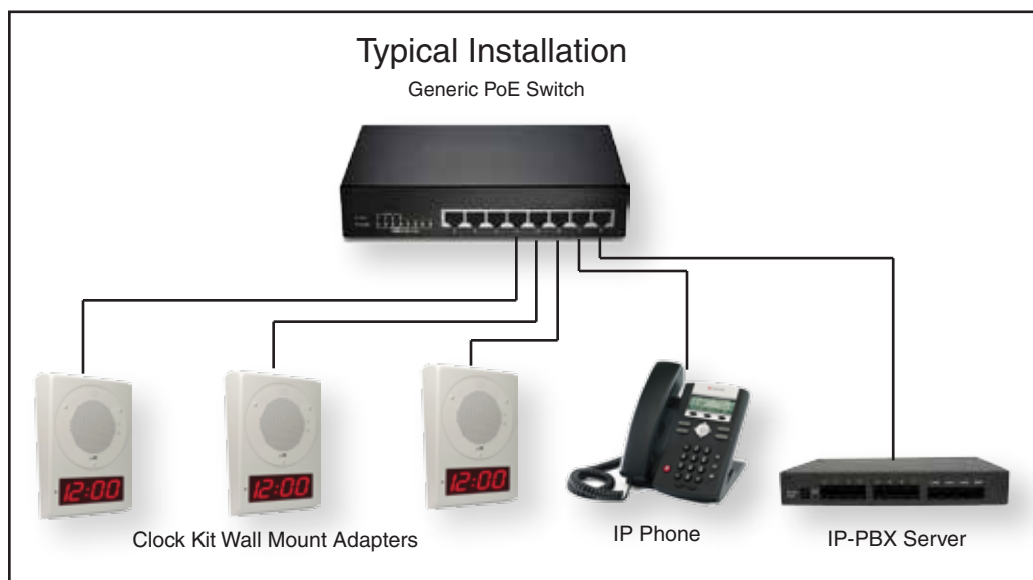

Ordering Information

The VoIP Clock Kit can be purchased as the Clock Kit Wall Mount Adapter (#011153). The CyberData SIP Speaker must be purchased separately.
