The 011146 SIP Paging Server w/Bell Scheduler can play stored audio messages to outdoor speakers, reminding customers to maintain safe distancing, while also providing updated announcements.

Perfect outdoors, the 011457 SIP IP66 Outdoor Horn can play messages in loud environments as well.

Speakers, strobes, intercoms and horns can be installed outdoors and indoors to facilitate paging and notification of important updates to all customers.

The 011186 SIP Outdoor Intercom, installed at the pump, can provide two-way communication while maintaining social distancing.

# Typical Installation: Gas Stations, Drive Thru/Fast Food Establishments Using CyberData SIP Endpoints

In this scenario, using a SIP Paging Server enables you to play stored audio messages or background music over IP endpoints, and do live paging to specific endpoints via zone paging: outdoors, indoors, page all, or just a select few.
