Product name

VTech CareLine SN5127 Amplified Cordless Senior Phone System with 90dB Extra-Loud Visual Ringer, Big Buttons & Large Display

Product description

With features that make calls easy to dial and hear, the VTech CareLine SN5127 Amplified Cordless Senior Phone System with 90dB Extra-Loud Visual Ringer, Big Buttons & Large Display is a senior-friendly phone system boasting big buttons, 50dB audio assist and caller ID announce. The built-in digital answering system records up to 22 minutes of messages and is easy to set up thanks to an audible guide that walks you through the steps. An extra-loud 90dB ringer makes it easy to hear incoming calls throughout your home. Plus, a light on the top of the senior-friendly handset and base unit flashes when the telephone rings, signaling an incoming call. This feature is especially helpful for those who are hearing impaired.

Increase the volume of incoming sound on this VTech CareLine SN5127 Amplified Cordless Senior Phone System with 90dB Extra-Loud Visual Ringer, Big Buttons & Large Display by up to 50 decibels, making conversations easier to hear and understand. The best part? You can say goodbye to unwanted calls with this senior-friendly telephone thanks to smart call blocker. Robocalls on your landline are automatically blocked from ever ringing through—even the first time. You can also permanently blacklist up to 1,000 numbers with one touch.
