AudioCodes Solutions for Zoom Phone
Elevate Your Zoom Experience - Now & Into The Future

ZOOM Phone

A single source for end-to-end Zoom voice enablement

### Minimizing complexity with one-vendor for your voice solutions

Unified communications and collaboration solutions are revolutionizing the way people work and promise to deliver enhanced productivity. But migrating from legacy solutions to an integrated enterprise collaboration platform with full voice support poses a few challenges. No matter where you are now – or who you are with – we can get you to where you want to be with Zoom.

AudioCodes Live for Zoom Phone is a unified offering of voice connectivity and productivity solutions that deliver simplicity and enhanced functionality for Zoom Phone deployments.

Survivability & Simplicity for Zoom powered by AudioCodes

AudioCodes has created a full end-to-end solution for Zoom customers – also available on a price-per-seat plan – providing a one-stop-shop for Zoom connectivity services and solutions. This solution includes IP phones and devices, as well as Zoom BYOC, to quickly implement carrier-grade voice connectivity and analog capabilities for a superior Zoom experience.

We understand that real connections matter in today's business landscape. With 30 years of experience within this world – we deliver a portfolio of solutions that know how to ease the integration of Zoom and enterprise telephony. It provides a seamless, rapid, and cost-effective migration to Zoom for a high-quality voice and video meeting experience.

- BYOC SBCs
- IP Phones & Room Systems
- Digital & Analog Gateways
- Network Analytics
- Local Survivability

Weathering the Storm with AudioCodes & Zoom
