

IP Clocks

Valcom's IP Clocks automatically receive time updates through your TCP/IP network via NTP (Network Time Protocol). IP Clocks provide a facility-wide time standard, are simple and easy to install, and provide proven time-keeping accuracy and reliability for your organization. Valcom's Synchronized IP Clocks are ideal for schools, universities, offices, government agencies, healthcare, manufacturing and transportation facilities.

Enables time indication, synchronization, and correction over a simple network connection.
